

Somerford Mini Limited Catalogue Price List

Price List Format

This price list, to be used in conjunction with the Somerford Mini Limited Engines, Cooling and Heating Systems, Fuel and Exhaust Systems, Transmissions, Running Gear and Subframes, Electrical and Instruments, Body Panels, External Body Fittings and Internal Body Fittings Catalogues, is laid out in part number order and follows the conventions described here:

1. Parts which are available and are usually held in stock - the part number is followed by a description of the part and the unit price.
2. Parts which are not usually stocked but may be obtained through negotiation with a supplier, or parts which may vary between new or reconditioned status (for example, instruments) - described as 'Price on Application' and the price shown as zero.
3. Parts which are not available are not shown in this price list.

A few parts in this price list have been superseded to alternatives. These are described as 'Use...' followed by the alternative part number, which should be quoted when placing an order. However, if the alternative part differs substantially from the original, the description will read 'Suggest...' followed by the alternative part number. In this instance please establish before placing an order that the alternative part is satisfactory for your requirements, either by referring to the catalogue or by contacting us.

Prices

All prices are unit prices (i.e. they relate to single items) unless otherwise stated and exclude VAT and delivery costs. The prices quoted are current at the time of publication (January 2008). However, while every attempt will be made to hold prices until publication of a new price list, Somerford Mini Limited reserves the right to change prices without prior notice in accordance with changes in the cost of parts. Please confirm prices, delivery costs and method of payment with us when placing orders. Written quotations are available on request.

Value Added Tax (VAT) will be charged on applicable goods to residents of the UK and EC countries at the current rate (17.5%). For overseas orders outside the EC, VAT is not applicable. VAT registered EC businesses should supply their VAT number in order to receive their goods at VAT exempt prices.

Somerford Mini Limited, Unit 2 Broadfield Farm, Great Somerford, Chippenham, Wiltshire SN15 5EL.
